

LIVING FLAME EXPRESSED GUARANTEE

September 2016

Inbuilt Fireplace bodies are constructed for a minimum working life of 15 years when installed in compliance with ASNZS5601, C1 Outbreak of Fire and manufacturer's installation, operating and maintenance instructions.

FIRE SURE LIFETIME BODY GUARANTEE

This is a Fire Sure Lifetime Replacement Guarantee that covers the fireplace body manufactured by Living Flame Fires and only covers the replacement of the fire body where an irreparable defect, due to material or manufacturing failure, occurs within the lifetime of the fire. The Fire Sure Lifetime Body Guarantee does not cover faults caused by incorrect installation, incorrect commissioning or misuse, and the fire should be installed and maintained in compliance with the guarantee and all conditions of the guarantee fulfilled.

ONE YEAR BURNER COVER GUARANTEE

This is a One Year Replacement Guarantee that covers the Biofuel burner parts used in the manufacturing of a Living Flame Fire. The manufacturer only covers the replacement of a burner part where an irreparable defect, due to material or manufacturing failure, occurs within the first year from date of supply by Living Flame Fires.

THREE MONTH PAINT COVER GUARANTEE

This is a Three Month Guarantee covering the painted surface of the firebox. It is a warranty against paint peeling and flaking off during normal use of the fire. It excludes discolouration as this is a normal property of the painted surface when heated by the flames. It also excludes any scratching of the painted surface that may occur at the time of installation. It is the responsibility of the installer to touch up any paint surfaces if necessary as it is part of a normal installation service. This does not affect the running of the fire but is aesthetically pleasing to have done. Please check with your annual service provider.

EXCLUSION FROM GUARANTEE

This Fireplace Replacement Guarantee excludes any costs associated with the removal or replacement on site of the fireplace at the owners request, required for finishing work or refurbishment work to the fireplace. This guarantee is only valid when the fire has been installed in New Zealand.

INSTALLATION

Living Flame Fireplaces must be installed to comply with:

- New Zealand Standards and Building Codes where relevant;
- Living Flame Installation Instructions;
- Living Flame Operating Instructions;
- Living Flame Maintenance Instructions.

Living Flame Fireplaces must be installed free from dampness and free from corrosive elements.

LIVING FLAME EXPRESSED GUARANTEE (CONTINUED)

September 2016

INSTALLATION

Living Flame Fireplaces must be installed to comply with:

- New Zealand Standards and Building Codes where relevant;
- Living Flame Installation Instructions;
- Living Flame Operating Instructions;
- Living Flame Maintenance Instructions.

Living Flame Fireplaces must be installed free from dampness and free from corrosive elements.

GUARANTEE AND WARRANTY VALIDITY

Guarantee claims will only be considered when completed by a Living Flame approved serviceperson in accordance with Living Flame procedures.

OPERATING

Living Flame Fireplaces must be operated in accordance with Living Flame Operating Instructions.

Living Flame Fireplaces should be used only for the burning of gas fuels: Bioethanol. The type of gas to be used should be specified at the time of ordering the unit.

Living Flame Fireplaces must only be operated with a Bio Flame Burner Insert that has been installed to Living Flame's installation instructions.

MAINTENANCE

Living Flame Fireplaces must be maintained, cleaned and re-commissioned annually as should all gas appliances.

DOMESTIC USERS

Living Flame Fireplaces should be inspected, cleaned, serviced and re-commissioned at least once yearly throughout the lifetime of the fire to maintain the guarantee.

COMMERCIAL USERS

Living Flame Fireplaces should be inspected, cleaned, serviced and re-commissioned at least twice yearly throughout the lifetime of the fire to maintain the guarantee.

This Guarantee should be kept in a safe place along with the Operating Instructions.
